Date :
22nd February 2018
Time :
9:00am to 5:00pm

Venue :
Malvern International Academy
(Near to LRT & MRT Pasar Seni)

Trainer :
Asst. Professor Dr Hj Shamsiah Banu
Bt Hj Mohamad Hanefar

Introduction

An effective teacher must have a range of different teaching and learning tools that can be drawn upon and used in the classroom. For effective learning to take place, the teacher must not only have good subject knowledge but also effective pedagogical skills if they are to get the ideas across to the students.

Effective teaching and learning plays a crucial role in student's engagement, attainment and progression in the subject matter. Teaching and learning are both complex processes and good teachers teach aspects of the curriculum in different ways. This topic explores a number of ways to think about, plan and structure teaching as well as looking at some of the underlying principles at the heart of good teaching and learning.

Objectives

After working through this workshop you will be able to:

- describe a number of different models of teaching (Problem Solving & Project Based Learning);
- understand the social, behavioural, and academic success in a structured teaching and learning environments;
- evoke some of the underpinning principles at the heart of good teaching and learning;
- learn how to access further supports and resources (PowerPoint presentation and other educational technology)

Program Content

- Introduction to 21st Century Pedagogy
- Problem Solving and Project Based Learning
- Classroom Management
- Powerful Presentation with PowerPoint
- Interactive Lecturing: Web 2.0
